

Our Firm

Welcome to David Wilson Garden Design. We create unique, personalized landscapes to enhance the beauty and livability of your home.

David Wilson is a native plant specialist with a degree in horticulture. Business partner Marco Rini has completed master's degree study at the Oxford College of Garden Design in England.

We founded our firm in 1987. But we started designing gardens as individuals even earlier, giving us more than 60 years of experience combined.

We have designed some of the most exquisite gardens in Austin. Our clients are so pleased with our work that most of them return to us again and again when they move to a new house or buy a place in the country. That speaks highly of our trust in each other, and we are grateful.

If you are coming to us for the first time, be ready to take a fresh look at your property. We will not impose a design upon it but rather let the design emerge from it. We believe in using what's there and adding elements that fit your house and your lifestyle. The result is a one-of-a-kind design.
